

## Authorization to Publish

The undersigned ("I") submits the article listed below (the "Work") for publication in the *Journal of Forensic Identification* ("JFI"), the official publication of the International Association for Identification ("IAI"). As a condition of publication and for no monetary compensation, if accepted for publication, I agree to assign and hereby do assign to IAI, its successors and assigns, all worldwide right, title, and interest in and to the Work and all copyrights rights in and to the Work, including without limitation, the exclusive rights to edit, copy, assign, license, publicly display, and distribute all or part of the Work in any media or form whether now existing or later developed. I agree to execute additional documents as IAI deems necessary to effectuate or perfect the transfer of rights in and to the Work or to enable IAI to obtain any copyright registrations or other protection for the Work. I grant IAI the right to use my name, likeness, and biography in connection with the advertising, publication, and promotion of the Work. I release IAI from any claim based on right of privacy or publicity.

I represent and warrant to IAI that:

- (1) The Work is an original work and is not subject to any third party copyright.
- (2) I am the sole author of the Work, own all right, title, and interest in and to the Work, and have the power and authority to assign the rights herein and to execute this Authorization; or, alternatively as applicable, there are multiple authors of the Work and each author's contributions are intended to be inseparable parts of a unitary whole and I am a co-author of the Work and, together with the co-authors set forth below, own all right, title, and interest in and to the Work, and have the power and authority to assign the rights herein and to execute this Authorization.
- (3) To the best of my knowledge, the information, data, and conclusions presented in the Work are accurate. In the event I become aware of inaccuracies after submission of the Work to IAI, I shall immediately notify IAI and take all steps deemed necessary by IAI to correct any such inaccuracies.
- (4) All artwork in the Work is original to one or more authors of the Work; or alternatively, to the extent artwork is not original, I have obtained necessary permissions consistent with this Authorization and will provide them to IAI with this Authorization.
- (5) Publication of the Work will not libel anyone or infringe on or invade the rights of others. Where necessary, I have obtained all third party permissions and consents consistent with this Authorization and will provide them to IAI with this Authorization.
- (6) This research has not been previously published; or alternatively, if any portion of the research has been published, I will provide copies of the material to IAI with this authorization.
- (7) The Work is not currently under consideration for publication by another publication.
- (8) I will not submit the Work to another publication unless and until IAI chooses not to publish the Work.

I agree to indemnify and hold harmless IAI from any damage or expense that may arise in the event of a breach of any of the representations and warranties set forth above. I agree that the corresponding author designated below shall act as the sole point of contact with IAI. The designated corresponding author agrees to inform the co-authors regarding any editing and publication issues. I hereby appoint the designated corresponding author as the sole point of contact and authorize IAI to work solely with the corresponding author. Nothing herein shall obligate IAI to publish the Work in the JFI. In the event that the Work is not published by IAI, this Authorization becomes null and void. The invalidity of any portion of this Authorization shall not affect the enforceability of the remainder of this Authorization. Copies of an executed version of this Authorization may be treated as an original for all purposes.

By signing this Authorization, I hereby acknowledge that I have read and understand this Authorization and agree to its terms.
