At the 102nd International Educational Conference, individuals will have an opportunity to participate in the annual Poster Presentations. Posters that have been accepted through the IAI Science and Practice peer review process will be displayed on Tuesday evening.

**CALL FOR PROFESSIONAL POSTERS**

Individuals interested in presenting posters at the Conference must submit their proposal online before June 30, 2017. They will be informed of their poster acceptance approximately 30 days after their online submission. Poster presenters may be asked to submit full poster contents for the review process. Research projects in the forensic fields of crime scene processing and collection, latent print, footwear or tire impression, biometrics, bloodstain pattern, facial identification, forensic art and forensic podiatry evidence are welcome. Posters may also demonstrate a process, present an unusual case or include items of historical interest. Other topics may be accepted on a case by case basis. For the poster presentation, the presenter will be expected to stand by their poster and answer questions posed by conference attendees and judges. No formal presentation is required.

Note: Audio/video equipment (VCRs, televisions, computers, etc.) and other electrical components will not be provided for the poster presentations. A 4’ X 8’ board will be provided for display of each presentation. It is the responsibility of the presenter to insure his/her poster is picked up at the conclusion of the presentation.

Registration is now open and the deadline will be June 30, 2017.

Registrations can be made at the following link: http://www.theiai.org/conference/presentations/presentation.php
